Significant Risk: Strategic Direction Update

Hello,

On the 14th February, I wrote out to you all asking for your commitment and informing you of the new strategic direction on Significant Risk Education, and I invited you to attend a webinar on the 22nd March hosted by National Highways on behalf of the Supply Chain Safety Leadership Group (SCSLG).

I am writing to thank those who attended the webinar, which gathered great feedback and discussion. As promised on the webinar we would be following up with dates of technical webinars for your nominated employees to attend, so you can implement significant risk within your business and undertake your significant risk profiling.

We have now set up 3 modules across a range of dates (as below) for the technical webinar which will be hosted by National Highways providing a choice of date to attend for each module. Please now ensure your nominee registers for one date against each module:

[22nd May 2023 - 14:00-15:30 Module 1](#)

[31st May 2023 - 13:00-14:30 Module 1](#)

[15th June 2023 - 14:00-15:30 Module 2](#)

[20th June 2023 - 14:00-15:30 Module 2](#)

[28th June 2023 - 14:00-15:30 Module 3](#)

[4th July 2023 - 14:00-15:30 Module 3](#)

I am troubled however that the percentage of companies who attended the launch webinar on the 22nd March was lower than expected. I urge you to immediately register to view the previous webinar [here](#), and then ensure your nominees attend the technical webinar as above.

I will close with a promise to keep you updated with our progress on the Strategic Direction and I trust that I will have your full support and involvement on the adoption of this new approach.

Many thanks in advance,

Malcolm Dare
Executive Director for Commercial & Procurement
